BANDITS KILL TWO YANKEES IN NEW RAID

CARRIZAL FIGHT AGAINST ODDS RELATED BY CAPT. MOREY

How Captains Boyd and Adair Died Told By Officer At Headquarters
MEN LAY WHOLE DAY SANS FOOD OR WATER
4 More Survivors, Suffering Terribly, Arrive At U. S. Camps

COLUMBUS, N. M., June 27.—Four more Carrizal survivors today arrived at the American lines in Mexico. Two were in terrible condition from lack of water and food.

FIELD HEADQUARTERS, Mexico, (by radio to Columbus, N. M.), June 27.—Capt. Lewis Sydney Morey of Troop K, the sole officer to have survived the fight at Carrizal, today told in detail of his battle against odds:

"The men of Troop C told me that Lieut. Adair died in an irrigation ditch with his head held by non-commissioned officers," said Capt. Morey. "There was water in the ditch, and Lieut. Adair would have pitched forward if he had not been supported. I understand that a non-commissioned officer left Adair in the ditch at his order and went forward to Carrizal. Looking back he saw Adair, his eyes glazed and his head wobbling against the sides of the ditch. The non-commissioned officer went back and stayed until Lieut. Adair died."

"Capt. Boyd was killed when the troops made a rush for a trench in which the Carranzistas had machine guns. Just how Capt. Boyd died I do not know."

Tells Men's Bravery
Capt. Morey told how his small detachment withdrew until he and seven men found themselves behind an adobe near a water hole.

GUARD FOR DEFENSE LAUNCHED WITH 67 MEN; PLANS FORMED

'Watchfulness,' Not 'Watchful Waiting,' Policy of New Organization

"Watchfulness," not "watchful waiting," should be the motto of every resident of Santa Ana. Every citizen should be careful at this time not to say anything that might excite the Mexican population, and should be on the lookout for the slightest indication in Mexican colonies that plans are being made for assaults.

These were the sentiments of men who crowded the city hall to capacity last night and who made an organized effort to protect the city should occasion arise for such action. Determination was seen in the face of every one present.

City Marshal Jernigan called the gathering to order and later was elected chairman of the evening. He stated the purpose of the meeting and said he believed it should be the duty of every citizen to keep a sharp ear for statements made to Mexicans by countrymen and Americans with reference to the situation.

To Avoid Trouble, Aim Many Mexicans, the marshal said, are ignorant and do not fully understand it should be impressed upon them that so long as they are orderly and do not get excited, there will be no danger of trouble locally. A rancher informed the marshal last week that a Mexican asked him to tell the rancher, the Mexican having been told by an American that if war was declared his countrymen would be killed.

It is just such remarks as the one attributed to this American which will cause trouble by arousing the Mexicans, it was pointed out. Every effort should be made to impress upon the Mexicans that they will be protected as long as they conduct themselves properly, the marshal urged.

Deputy District Attorney Eden made an earnest talk in which he cautioned everyone to be careful not to do anything which would excite the Mexican population.

COULD ORGANIZE BATTALION IN COUNTY, SAYS L. L. VESTAL

No Trouble to Form Force of Four Volunteer Companies Is His Belief

That investigations are being made as to the number of volunteer companies which might be organized in Southern California in case they were needed for action in Mexico was brought to light yesterday afternoon when Major L. L. Vestal was asked if he thought a battalion could be organized in Orange County. The inquiry came from Major Frank McKeynolds, retired national guardsman, and now assistant internal revenue collector in Los Angeles.

Major Vestal declined to give an answer on the spur of the moment, but promised to make an investigation and report by the end of the week. Four companies form a battalion, and since he received the query, Vestal has made some inquiries and now believes that four companies could be easily organized in the county.

Gus Stern here
Gus Stern, former captain of a company at Anaheim, was in the city this morning, and Vestal met him by chance. Stern expressed the belief that no trouble would be experienced in raising a company of full war strength. With Santa Ana, Orange, Anaheim and Huntington Beach, Vestal should be able to make for the battalion in this county.

It is understood that a company has been partially organized at Huntington Beach, and that thirty-five men are now drilling, under Captain Dixon, a former Los Angeles police officer.

To Go to Orange
Vestal will go to Orange this evening to take up the matter with residents of that city. He thinks a company could be organized in Santa Ana, with ease. With Santa Ana, Orange, Anaheim and Huntington Beach, Vestal should be able to make for the battalion in this county.

Major Vestal declined to give an answer on the spur of the moment, but promised to make an investigation and report by the end of the week. Four companies form a battalion, and since he received the query, Vestal has made some inquiries and now believes that four companies could be easily organized in the county.

What Mexico Costs the United States

WASHINGTON, June 27.—It has cost more than \$100,000 a day to keep the regulars in Mexico for three months, or a little over 10 million dollars thus far. When the militia is mobilized it will cost an additional quarter million dollars a day to support it.

The American soldier is the best fed in the world. His food costs the government thirty cents a day per man.

DIPLOMATS STRIVING TO AVERT WAR; TROOPS SPEED TO FOIL BISBEE ATTACK

DOUGLAS, Ariz., June 27.—Mexican bandits last night crossed the border ten miles southeast of Hachita, New Mexico, raided a ranchhouse and killed the owner, named Parker, and his wife. The reports of the raid have been verified. It is reported that two other Americans were killed.

WASHINGTON, June 27.—Latin-American diplomats today sent dispatches to Carranza urging him to free the American prisoners. These diplomats pointed out to President Carranza the expediency of releasing the prisoners if he was sincere in his desire to prevent war. Since there is no war yet, the captured men are not prisoners and cannot legally be held on that charge.

MEXICO CITY, June 27.—Newspapers here today published correspondence between Mexico and the Latin-American republics and this shows that diplomatic representatives are doing everything in their power to prevent war.

MEXICO CITY, June 27.—Foreign Minister Aguilar has instructed Eliseo Arredondo, the Mexican minister at Washington, to get in touch with his Latin-American colleagues who have offered to mediate and to do everything in his power to prevent war.

A charge that the United States is seeking a pretext for intervention today was made by Minister Aguilar in telegrams to the Latin-American republics.

BUENOS AYRES, June 27.—A lengthy telegram, expressing the sympathy of the Latin-Americans today was forwarded to President Carranza.

SAN ANTONIO, June 27.—General Funston today announced that the Twenty-second Infantry had been ordered from Douglas to Naco in preparation to frustrate a reported plan of the Carranzistas to attack Bisbee. There are three battalions now at Naco.

General Funston today expected to have 70,000 guardsmen at his disposal along the border within ten days. 12,000 are supposed to be en route to points "somewhere in Texas," with 90,000 others to follow immediately. The remainder will be brought up to the army standard.

The quartermaster's department is working day and night to handle the necessary supplies.

Buildings are being erected and leased at strategic points on the border for the storage of ammunition. Railroads are building spurs to these places to facilitate handling of munitions.

TIME TO MEDIATE IS INOPPORTUNE, BRYAN STATES AT ST. PAUL
ST. PAUL, Minn., June 27.—"Unless the administration asked for a peace commission at this time, efforts to mediate with Mexico are inopportune," former Secretary of State Bryan today said.

"Probably no person wants the Mexican matter settled with a clash of arms more than I. Please remember that I said settled, I would not accept unless the President asked me."

Thus the Commoner declined to meet with David Starr Jordan, Frank P. Walsh and the Mexicans at El Paso for the proposed conference.

LAKE STEAMER SINKS IN CRASH; CREW SAVED
SAULT STE MARIE, Mich., June 27.—The steamer Panther with a cargo of wheat today sank abreast of Parisis Island in collision with the steamer Hill. The crew was rescued.

L. A. MAN SEES GOOD TIMES, DUE TO HUGHES
LOS ANGELES, June 27.—W. M. Garland, local realty operator and alternate to the Republican National convention at Chicago, returned home yesterday from an extended Eastern tour thoroughly imbued with the belief that the nomination of former Associate Justice C. E. Hughes of the United States Supreme Court, for the Presidency of the Republic ticket, is the beginning of the greatest era of prosperity the country has ever experienced.

"Mr. Hughes will be elected by the largest majority ever accorded a Republican nominee," enthusiastically continued Garland.

ORIENTAL TOUR, PLAN OF ELBERT H. GARY
NEW YORK, June 27.—Elbert H. Gary, head of the United States Steel Corporation, will sail from Vancouver next Monday for a vacation of about three months, which he will spend largely in the Philippines and Japan.

COAST CITIES LOSE IN RATE DECISION OF INTERSTATE BOARD
WASHINGTON, June 27.—Owing to the removal of water competition, Pacific Coast cities will lose the advantage over intermediate cities on transcontinental rates, through an order that the Interstate Commerce Commission today issued.

CHICAGO, June 27.—Prince Hohenlohe, who was until recently an attaché of the Austrian embassy at Washington, has passed through Chicago on his way to the coast. He goes to San Francisco temporarily to accept the post of Consul General there.

HERE ARE POINTS ON HOME COMPANY

Home Guard organized with 67 members.
L. L. Vestal chosen drill master. Drills will be held once a week. Fire whistle will signal trouble. When alarm is sounded every member will report at city hall where squads will be formed and sent where needed.
Fifty automobile owners and fifteen motorcycle owners offer machines for service.

T. R. TO DINE WITH HUGHES TOMORROW

NEW YORK, June 27.—Colonel Roosevelt will dine with Charles E. Hughes at the Hotel Astor tomorrow night, it was learned today. No other guests have been invited by Hughes and his first meeting with Roosevelt will be strictly private.

JOHNSON BACKS HUGHES

SACRAMENTO, June 27.—Governor Hiram W. Johnson today addressed the following statement to the Progressives of California:

"It apparently seems that the Progressive party cannot proceed this year as a separate national party and that the Progressives must choose between President Wilson and Charles E. Hughes. It is my individual choice to support Hughes. That we are contending by this alternative does not mean that we in California will abandon our Progressivism, because the Progressive movement is permanent. Party name is not essential, but, however, we will act under whatever name will continue Progressivism triumphant in California and preserve the governmental achievements accomplished by years of Progressive effort."

WILCOX CHAIRMAN

NEW YORK, June 27.—William R. Wilcox today was named chairman of the Republican National Committee.

ANTHONY AMENDMENT IS BACKED BY SOLONS OF SUFFRAGE STATES

WASHINGTON, June 27.—Senators from the suffrage states today agreed to a resolution supporting in Congress the Susan B. Anthony amendment.

GEORGE KNIGHT DIES AT SAN FRANCISCO

SAN FRANCISCO, June 27.—George A. Knight, former Republican National committee-man from California, died today at the Adler Sanitarium of heart trouble.

CROWN RESTS CASE IN TRIAL OF CASEMENT

LONDON, June 27.—The Crown rested its case against Sir Roger Casement early this afternoon. Solicitor Sullivan, for the defense, argued a motion to quash the indictment.

GERMAN FORCES RUSH TO MEET BRITISH DRIVE

ROME, June 27.—The Italians have re-captured the strongly fortified town of Arero, the town of Posins, Bosisio and others, the War Office today announced.

Aeros Shell Teuton Ships

PARIS, June 27.—Three French aeroplanes, armed with cannon, hurled sixty shells on German ships off Belgium, today's communique stated. The French advanced at Thiaumont.

Drive Near, German View

BY ED L. KEEN
(United Press Staff Correspondent)

LONDON, June 27.—Germany believes that the "big push" by the allies is about to begin. The Germans are feverishly reinforcing their positions in Northern France and Flanders, as the British guns continue their incessant pounding from Ypres to the Somme.

Paris and London are rejoicing. The Matin, Paris, says: "The hour for action has come. Attacks will succeed the defense of many fronts."

In both Rome and Paris the prospects of the combined offensive on all fronts are being received with rejoicing.

In Paris military critics believe that the first stroke against the German lines by the British in Northern France will cause the abandonment of the German Verdun drive.

Enthusiased over General Cadorna's sweeping gains against the Austrians, the Italian capital is awaiting news of the re-capture of Arizero and other positions captured by the Austrians in their recent offensive.

On the eastern front the Russians have entered the Carpathian passes.

British Guns Active
BERLIN, June 27.—There is intense British artillery firing on the banks of the Somme; the French have been repulsed in attacking Thiaumont, today's official statement said.

The Russians have been defeated at Bokul, several hundred being captured.

TROOPS PERISH AS 2 TEUTON SHIPS SINK
ROME, June 27.—Two Austrian transports have been sunk in the harbor of Durazzo by the Italians. The transports were loaded with troops, arms and ammunition.

REPORT ON BILL TO DRAFT NAVY MILITIA INTO FEDERAL SERVICE

WASHINGTON, June 27.—The House Naval Affairs committee today reported on a bill for the federalization of the Naval Militia.

\$4,000,000 MUNITIONS ORDER GIVEN BY U. S.

NEW YORK, June 27.—A four-million-dollar order for munitions has been placed with the Crucible Steel Company by the government, it is today reported.

ALL TAMPICO YANKEES ARE ON WAY TO U. S.

VERA CRUZ, June 27.—The entire American colony at Tampico today is en route to the United States on oil tank steamers.

GERMAN WAR VESSEL WRECKAGE IS FOUND

LONDON, June 27.—A Central News dispatch from Ymuiden states that a trawler putting in there picked up wreckage from a warship off Jutland. Parts of the wreckage were marked "Koenig Wilhelm." The news agency suggests that the Koenig Wilhelm was sunk in the Skagerrack battle.

DUKE OF DEVONSHIRE TO BE GOV. OF CANADA

LONDON, June 27.—The Duke of Devonshire will succeed the Duke of Connaught as governor general of Canada.

OREGONIANS FOR SAN DIEGO
CAMP WHITCOMB, CALIF., June 27.—The third battalion of the Third Oregon Infantry entrained this afternoon. These are the first coast troops to leave for the border. They were ordered to San Diego.

PERSHING MOVE FOILS ATTACK PLAN IN MEX.

EL PASO, June 27.—General Pershing has removed his base from Nampiquipa to Dublin and in so doing has check-mated any attempt the Carranzistas might have made to annihilate one or more of the separate camps strung along the line of communications.

Indignation over the coming of the peace commission from the American Union Against Militarism broke out in street corner protest meetings.

David Starr Jordan, the first delegate on the ground, admitted that he had but little hope of really attaining his object.

SERVE CONTEMPT WRIT ON ATTY. MARSHALL

NEW YORK, June 27.—H. Snowden Marshall, federal district attorney, has been served with a warrant in connection with his alleged contempt of Congress, for criticizing a House subcommittee investigating impeachment charge made against him by Representative Buchanan. Mr. Buchanan immediately obtained a writ of habeas corpus.

Progressives Back Hughes

MOOSE LEADERS SUPPORT G. O. P. CANDIDATE IN 32-6 BALLOT

Career of Party Born In '12 Ends At National Com- mittee Meeting

CHICAGO, June 27.—After a day of wrangling, the Progressive national committee last night voted to endorse Charles Evans Hughes for president. Thirty-two members of the committee supported the endorsement resolution offered by James R. Garfield of Ohio. Six voted against it and nine declined to vote.

Several of the fifteen minority members, including Raymond Robins, announced they probably would support President Wilson.

The action, which was taken in accordance with the wishes of Theodore Roosevelt, as expressed in a letter to the committee, marked the demise of the Progressive party.

While the national executive committee was instructed to co-operate in the Hughes campaign, it was admitted the full national committee never would have another meeting.

The resolution as finally adopted after seven hours of debate was as follows:

"Whereas, the statement issued by this committee in January and the platform adopted by the Progressive national convention set forth that, putting aside all partisan considerations in view of existing world and national conditions, we would work with any man or party who saw the nation's need and put forth a leader fit to meet it;

"Whereas, we believe with Colonel Roosevelt that in nominating Charles E. Hughes of New York the Republican party has put forth such a leader, we endorse and concur in the recommendation of Colonel Roosevelt that we support Mr. Hughes."

"California, through the committee, lined up with the 'yees' on the resolution."

The opponents of the proposal to endorse Hughes put up a stubborn fight.

Mr. Garfield was the floor leader for the Hughes forces. George W. Perkins of New York and Chester H. Rowell of California also urged the endorsement of Hughes.

Harold L. Ickes, Progressive national committeeman from Illinois, voiced the sentiment of the majority members of the committee in a statement issued last night, in which he said:

"We might as well face the facts. The Progressive party is dead; in my opinion, beyond recall. The members of the party must go back to the party from which they came. I left the Republican party without reluctance. I go back to the Republican party with regret."

S. A. POLICE LAUDED

The following communication has been received by R. L. Bisby:

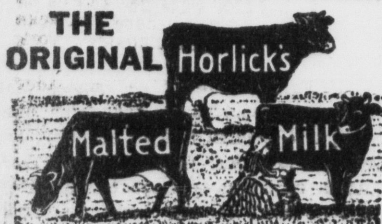

June 21, 1916.

Santa Ana, Cal.
Friend Bisby:—It is with pleasure that I add my few words of appreciation to the many that I have heard regarding the efficient and up-to-date handling of the traffic by your officers on the occasion known as the "Fiesta de Luz" in your city.

Their unflinching good nature and courtesy was commented on by every one from this city, and the efficient manner in which they handled the congested streets, certainly reflected credit on the Santa Ana Police Department.

Personally thanking you and every one of the committee for one of the most pleasant times in my life, and trusting to have the pleasure of meeting and greeting each and everyone of you the day of our "Carnival of Streets," July 2d, I beg to remain,

Very respectfully,
C. C. COLE,
Chief of Police, Long Beach, Cal.

HUGHES TELEGRAPHS WELCOME TO MOOSE

Republican Nominee Arraigns 'Weakness' of the Ad- ministration

NEW YORK, June 27.—Welcoming the support of the Progressives and arraigning the present administration for its "weakness and uncertainty," Charles E. Hughes last night telegraphed to O. K. Davis, secretary of the Progressive National committee, responding to a wire from the secretary notifying Hughes of the Progressives' endorsement of him.

"We want a revival of the American spirit—a nation restored," Hughes' message read, in part. "We insist upon prompt and adequate provision for the common defense."

"The most serious difficulties the present administration has encountered have been due to its own weakness and uncertainty."

Flays Alien Plots

"We strongly denounce the use of our soil as a base for alien intrigues. That sort of thing could not continue if the administration took proper measures to prevent it."

Referring to the United States note of June 20, 1916, to Mexico, and quoting from the note that fact that for three years the Mexican republic has been torn with civil strife, and also the references to the taking of American lives in Mexico and the destruction of property, and that those responsible in Mexico had "neither been apprehended nor brought to justice," Hughes wrote:

"What an indictment by the administration of its Mexican policy! And still we are unprepared. That unpreparedness in the midst of peril, and after the experience of three years, is a demonstration of an unpardonable neglect for which the administration is responsible."

Patriotism Needed

"The government now has and must have most emphatically the unstinted and patriotic support of every citizen in the existing exigency."

"No intelligent man is deceived by the temporary prosperity due to abnormal conditions and no one can fail to appreciate the gravity of the problems with which we shall be faced when the war ends."

Safeguard the Nation

"We are alive to the imperative necessity of assuring the bases of honest business. I am in deep sympathy with the effort to improve the conditions of labor; to prevent exploitation; to safeguard the future of the nation by protecting the women and children. I believe in workmen's com-

N. G. C. CAMP NOTES

MOBILIZATION CAMP, SACRAMENTO, June 21.—

Starting with only a small detachment on guard duty, the mobilization camp grew to a tented city of 1200 during the first 24 hours. At present there are more than 3,000 men here and the camp is still growing. Militarism rules supreme. Orders are given and executed in true war-like style. When a captain wants assistance in unloading supplies he does not say, "Give us a lift." He says, "Corporal of the guard" or something to that effect and there is a ready response.

There is little chance of the boys in khaki going hungry. Every minute of the day motor trucks are bringing in supplies. The dairy building on the fair grounds has been converted into the main warehouse for food supplies. Here are stored tons of beef, tons of sugar and coffee, hundreds of sacks of potatoes, thousands of loaves of bread. The bread, by the way, is all done up in strictly sanitary style, wrapped in sealed packages. Hundreds of tons of ice are required to keep the food supplies pure and fresh. The excellent manner in which the supply problem has been handled reflects credit upon Col. D. A. Smith, chief of the quartermaster's corps. Col. Smith does more work with less effort than any man on the grounds. Among the officers he is familiarly known as "Spot," so named originally because of the bald spot on his head and later because he acquired a reputation for being always "on the spot."

The Chico and Oroville boys, first to reach the camp, were dead tired upon arrival. They stretched out in the welcome shade of the grand stand. There was little jollification. The sad farewells of the home folks were still in their ears. One young man from Chico could not hold back the tears as he related the parting scenes. He bade farewell to the girl he is engaged to wed and to his aged mother who was left a widow four months ago.

But the busy program of drills and instructions will keep the minds of the guardsmen occupied throughout the day. There are raw recruits in each company and these must be trained to move in exact unison with the more experienced troops. The work is mighty tough for the soft boys—those who were accustomed to clerking in a store, working in a bank, or at other occupations that did not call for physical exercise.

Capt. Dooley of Oroville, is being showered with praise by national guard officers. Capt. Dooley had only 32 men on his roster when the call to arms came. He reported at Camp Johnson with 80 men, and not satisfied with even this record, he intends to send a recruiting officer back to Oroville to round up more recruits for his company—1.

Ben Dawson, in private life a messenger for the state board of control, taking orders from clerks and assistants. But in military life he is Sergeant Ben Dawson and some of those same clerks and office assistants are

GOV. JOHNSON WILL BACK C. E. HUGHES

SAN FRANCISCO, June 27.—William H. Crocker, Republican National committeeman, who arrived here from the East with Governor Hiram Johnson, said in a newspaper interview that Governor Johnson would support Charles E. Hughes, the Republican nominee for President.

Mr. Crocker said the Governor had assured him that as soon as Mr. Roosevelt had announced himself for Hughes that he (Johnson) would do likewise in a public declaration.

pensation laws; in wise conservation of our national resources so that they may be protected, developed and used to the utmost public advantage; and underlying every endeavor to promote social justice is the indispensable condition that there shall be a stable foundation for honorable enterprise. American industry must have proper protection if labor is to be safeguarded. We must rescue our instrumentalities of interests and foreign commerce, our transportation facilities, from uncertainty and confusion. We must show that we know how to protect the public without destroying or crippling our productive energies.

Finds Democrats Lacking

"To what agency shall we look for the essential constructive program on which our security and prosperity must depend? It is vain to expect it from the Democratic party. That party has not the national outlook. Both its traditions and dominating influences are fatal handicaps. The Progressives have insisted on a responsible, not invisible government, an efficient administration. I yield to no one in that demand. I am eager to call the best ability of the country to our aid."

Asks Progressive Aid

"I am deeply appreciative of your endorsement. I find no difference in platform or in aim which precludes the most hearty co-operation and the most complete unity. It is within the party that the liberalizing spirit you invoke can have the widest and most effective influence. I solicit your earnest effort for the common cause."

Branch headquarters, it is expected, soon will be established in Chicago and probably also on the Pacific Coast.

N. G. C. CAMP NOTES

now taking orders from him, for they are only privates. Likewise in official life, G. M. Homans, state forester, issues orders to Alex W. Dodge, his deputy. But in military life Homans, a private in the Sacramento machine gun company, is directed by his deputy who is first lieutenant in the same company.

Adjutant General Thomas expressed gratification upon making his first inspection of the camp. Although pressed to the limit by business, he stopped on numerous occasions to speak a few pleasant words to privates.

Commanding officers of the guard are continually puzzled when it comes to issuing orders to the McClatchy twins—Jim and Jed. Jim is captain of the Sacramento machine gun company and Jed is captain of Company G, Second Infantry. They are as much alike as two peas in a pod and the commanding officers have to be informed who's who before orders are given. Jim and Jed could change positions and the men of their companies would be none the wiser.

Considerable liberty is granted at Camp Johnson. Wives, children and sweethearts are permitted to visit their loved ones at various times. It is expected that many from Chico, Oroville, Fresno and other cities that have organizations at the camp will come to Sacramento again to see the ones dear to them before the order to leave for the border is issued.

The official mascot of the camp is little Tommy Malone, two-year-old son of Corporal T. F. Malone of Troop B, first squadron of the cavalry. Tommy, rigged out in regulation khaki, will stay with his father to the very last. Tommy's wrestling with a man's size rifle furnishes an exceptionally amusing sight. And the youngster gets all the stray pennies in the troop.

The generosity of home folks in raising funds to provide the militiamen with articles not provided through the regular army sources is the occasion for much comment among the soldiers. At Oroville the "hat was passed" just before the troop train left. Citizens tossed a total of \$160 into the hats and this will be used by the captain to good advantage. Woodland also made a substantial cash contribution.

Dolph Allen, a member of the hospital corps, got off duty long enough to receive his diploma as a graduate of the Sacramento High School.

Don Lamping, another member of the hospital corps, can be depended upon to show a lot of speed. He is a champion sprinter and has won many points for his High School team.

A number of recruits from Northern California arrived at the camp in civilian clothing. There were not uniforms to go around. But upon arrival the uniforms were immediately forthcoming.

HUGHES THANKS ROOSEVELT FOR ENDORSEMENT

NEW YORK, June 27.—"I warmly appreciate the cordial letter of endorsement which you have sent to the Progressive committee," wrote Charles E. Hughes to Colonel Roosevelt.

"No one is more sensible than I of the lasting indebtedness of the nation to you for the quickening of the national spirit," says the letter, which also mentions the demand for an out-and-out Americanism and the insistence upon the necessity for preparedness. Hughes writes:

"I am in this campaign because of the conviction that we must not only frame, but execute a broad constructive program, and that for this purpose we must have a united party, a party inspired by its great traditions and consecrated to its loftiest ideals. I know that you have been guided in this emergency by the sole desire to be of the largest service to the United States. You have sounded forth the trumpet that shall never call retreat. And I want you to feel that I wish to have all the aid that you are able and willing to give. I want the most effective co-operation with all those who have been fighting by your side. Let us work together for our National security, and for the peace of righteousness and justice."

"I enclose a copy of my telegram to the committee in which I have set forth my attitude. I shall later undertake a full discussion of the issues of the campaign."

"Hoping that I may have the pleasure of seeing you at an early date, I am, my dear Colonel Roosevelt, with cordial regards,

"Faithfully yours,
"CHARLES E. HUGHES"

WINDOW SHADES THAT WILL WEAR LIKE BUCKSKIN

Will Not Fade, Waterspot, Show Pinholes Or Cracks

Women everywhere will be interested to know that a window shade has at last been produced which will stand up under any usage, short of actual abuse without showing pinholes or cracks—that will roll up true and hang smooth without bagging—that will retain its good appearance after years of service; in fact, that will be replaced within one year if it fails to measure up satisfactorily to all of these requirements.

The trouble with the old shades was that under the strain of daily usage, the constant rolling up and down (often with a tug or jerk) the "filling" with which the fabric was stiffened would loosen and fall out—leaving the shade criss-crossed with unsightly cracks, and filled with little pinholes. Through these the sun and light is sure to streak—and shabby window shades will rob the best-appointed room of its attractiveness.

Realizing this great weakness, one of the leading window shade manufacturers of the country—The Talbert-Whitmore Co. of Los Angeles—has, after years of experimenting, produced an unfilled shade which is destined to revolutionize the window shade industry. This wonderful shade is now being produced for the market under the name of "Three Star Damask." It embodies all the good qualities to be desired in a window shade without any of the disadvantages of the old shades.

If you would have your home shaded with a fabric whose beauty the sun cannot dim, or the rain spot, a fabric that will not crack and grow unsightly, under the strain of constant use, just ask your dealer to show you the "Three Star Damask" brand and see that the guarantee is sewed in the hem. If, by any chance, he cannot supply you accept no substitute, but drop a line to the manufacturers, Talbert-Whitmore Co., Los Angeles, and they will see that you are supplied.—Adv.

DEFENSE GUARD LAUNCHED WITH 67 MEMBERS; PLANS LAID

(CONTINUED FROM PAGE 1)

hold dances. His advice had always been that dances should be held, but that fire arms and liquor should not be permitted.

Deputy District Attorney A. E. Koepsel made one of the strongest addresses of the evening and which received loud applause.

Koepsel Makes Talk

"We have assembled here for the purpose of organizing a home guard for protection of ourselves, families, city and county," said Koepsel. "Although much has been said to the effect that the Mexicans are not going to do anything, yet there is a possibility of them becoming active if war is declared. By reason of being so closely in touch with the Mexicans of the county through my work as deputy district attorney, I am in a position to find out what is going on among them. I have found that there are several organizations which do not amount to anything at this time. There are not over ten or fifteen members in each organization. Many local Mexicans belong to the Magon, and it is these agitators who will create the trouble, if trouble comes."

200 Leave for Mexico

"I know positively that not less than 200 Mexicans left for their native heath last week and fifty more took their departure night before last. I know that there is a general sentiment among them that if they are discriminated against and thrown out of work that they would rather join the army and become targets for bullets than to remain here and die of starvation."

"The necessity for the formation of a home guard is not only for our protection, but for drilling our citizens in military tactics. We ought to organize tonight with 100 men and within a week have 300 men in this vicinity who would be willing to give one or two nights each week to drilling, and the service of their motorcycles and automobiles."

To Lay Plans

City Attorney Scott said that he did not believe there was any probability of trouble, but that it would be well to be prepared. He moved the appointment of a committee of five to formulate plans. Colonel S. H. Finley, Sheriff Jackson and City Marshal Jernigan were appointed as three of the committee, they to select the other two. The three adjourned to the ante-room and named A. E. Koepsel and City Attorney Scott as the other members.

Colonel Finley reported for the committee, recommending that motorcycle and automobile squads be formed for transporting members to any point where their services might be needed. Major L. L. Vestal was selected as drill master, with Colonel S. H. Finley having general supervision of operations. A signal to call members to the city hall will be arranged with City Water Superintendent Reid, the signal to be given by the whistle at the water works. Upon the signal being given everyone will report to the city hall as quickly as possible.

Possible Drill Masters

B. Uttley, F. L. Worden and others were mentioned as possible drill masters in the event that L. L. Vestal should be successful in the organization of a military force which he is planning to organize.

Fifteen owners of motorcycles signed up last night for the motorcycle squad and they promised to double the

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says "we can't help but look better and feel better after an inside bath."

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, heavy breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

number before the end of the week.

Thirty automobile owners also signed the automobile squad.

A special roster of men who would drill one night a week was made up and sixty-seven enrolled.

The next meeting will be held at the Armory Monday night, when further plans will be discussed and permanent organization effected. Everyone is invited to attend, and those with fire arms are particularly requested to bring them along, without ammunition, so that those in charge may know just what equipment is available.

FASHIONS, OR WOMAN'S HEALTH

The first thing many persons think of finding on the Woman's Page of a newspaper is the Fashions. That is not what women most need to find there. Health is the first thing, and many women lack it. Notes telling how to preserve the health are of the greatest value and interest for women; and, if they the suffering from woman's ailments, they read with the most intense interest how other women got well from their ailments, and so they, too, get what made them well—Lydia E. SAYS MEXICANS HERE DO NOT EXPECT WAR

Rios' Countrymen Warned to Keep Quiet and Sober and Avoid Trouble

Because war and rumors of war have become an old story to them, many local Mexicans do not look upon the present strained conditions between the United States and Mexico as likely to bring about war.

"As yet," said Juan Rios of Santa Ana, a leader among some of the Mexicans here, "many of the Mexicans here are not expecting war, but nevertheless they have made up their minds what they will do in case there is war. We have diligently passed the word among our people to restrain themselves under all circumstances. We have advised them to keep sober and obey the laws absolutely."

"Many of the Americans seem to believe that if there is any trouble between the Mexicans and Americans locally that it will be because of some unruly Mexican getting angry and doing something or saying something that will start trouble. That sizes up the situation pretty well, so far as it goes. There will be no concerted action, I am sure."

"On the other hand, let me call attention to the fact that more stress should be laid upon the fact that the trouble might be started by some unruly American. We know that the police authorities and the better people are going to do their very best to protect us, but we fear that trouble might be started by some American who might attempt to bully some Mexicans or who might start an argument with them. In times of peace, I might call you a Gringo, and you would not think anything of it. Under the present strained conditions you are sensitive concerning that name, yet it is merely a nickname among the Mexicans, and might be often used without meaning to give offense, just as some Americans might use the word cholo and apply it to some Mexican who might resent the use of the word."

"You and I could talk about the situation, as we have done often before," said Rios to the Register representative, "and we would not get angry over it. Another American and another Mexican, however, might become heated in the argument, and the first thing they know they start trouble. For that reason our urgent advice to all Mexicans is not to discuss the situation at all, but to go right along about their business and their work."

"Because they fear that situations might arise in which individual Americans might stir up trouble that the authorities cannot control, a good many Mexicans, in case of war, may think it best to return to Mexico. They can get passports through the Mexican consul in Los Angeles. They do not want to return to Mexico to join the army, but because they feel that harm will come to them if they remain here. So far as I know no Mexicans have left here to go to Mexico to join the army."

"Personally, I believe that the outlook for quietness among the Mexicans here is excellent, for the Mexicans have shown a disposition to follow the advice of the authorities. We are not looking for trouble, but we will co-operate with the authorities to prevent trouble that might be started by the hot heads on either side."

FOREST SUPERVISOR WILL EXPLAIN THE FIRE GUARD OFFER

Among those who will attend the monthly meeting of the Associated Chambers of Commerce at Brea tomorrow night will be Forest Supervisor Sloane, head of the Cleveland National Forest, and Forest Ranger Bert Stephenson of El Toro. The forest supervisor will state that Uncle Sam offers to put up dollar for dollar with Orange county for the building of fire guards and trails in the Santa Ana mountains for the protection of the watershed from fire.

SEEK RECRUITS OF ENGINEER TROOPS

The recently organized Engineer Corps of California has been called on to furnish a battalion of engineer troops for service with the army in Mexico. Each regiment of the present organization has been requested to organize one company for this battalion, which is to be known as the "Service Battalion. E. C. Cal."

A. S. Ralph, who is the head of the local organization of the Engineer Corps of California, has been designated as local recruiting officer for the Service Battalion, and would like to hear from any one with the above qualifications who would like to get into actual service with this branch of the service.

The Third Regiment, headquarters which is located at Los Angeles, and which is in command of Capt. Chas. T. Leeds, Corps of Engineers, U. S. A., retired, is furnishing the company from this section, and the work of completing the organization is rapidly progressing. Capt. E. L. Swaine, an experienced engineer of Los Angeles, has been designated to command the company and is now on his way north to consult with the authorities.

Meetings were held in Los Angeles on Saturday evening last and last night, and there are already about forty recruits for the company, which list includes several from Santa Ana.

Engineer troops are the technical branch of the service, and are made up of skilled men in the various lines of engineering and mechanical trades. In a general way the trades and professions required are as follows: Photographers, lithographers, blasters and powder men, skilled carpenters, bridge carpenters, blacksmiths, masons, electricians, engineers, firemen, riggers, callers, horseshoers, farmers, saddlers, packers, teamsters and so on. The sergeants of the company are field engineers who are instrument men, topographical sketchers, draughtsmen, etc.

A full company, war strength, includes four commissioned officers, fourteen sergeants, eighteen corporals, two musicians, two cooks, sixty-four

privates, first class, and fifty-nine privates, second class, and out of this number twenty-four enlisted men are formed into a mounted detachment.

The duties of the engineer corps are to prepare roads, bridges, lay out entrenchments, fortifications and camps, and in every way prepare the way for the successful operations of the army to which they are attached. The successful army engineer in the field must be able to get results with the material at hand, and has not the advantage of the civilian engineer in times of peace, who can command every advantage which civilization can afford.

HOW TO GET RID OF A COLD

—Summer colds are serious. Read how C. E. Summers, Holdrege, Neb., got rid of his: "I contracted a severe cough and cold and could hardly sleep. I got a bottle of Foley's Honey and Tar and the very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough all night. By using as directed the next two days my cough was entirely cured and I give Foley's Honey and Tar full credit for my speedy recovery." Foley's always soothes and heals. Children love it. NOTICES COST \$500 TO MAIL

In Proposed Protection Districts 4200 Property Owners Get Letters

Today County Clerk Williams is mailing 4200 notices to property owners in the two proposed protection districts, petitions for which have been set for hearing on July 19 at 1:30 o'clock. Mailing costs the county \$500.

One of these petitions is for what is known as the Fullerton-Orangethorpe district, and the other is for the United district, comprising the Anaheim and Garden Grove sections.

When a petition for a protection district is presented to the Board of Supervisors, the law requires that the matter be set for hearing and that notice of the hearing be sent by registered letter to every property owner in the proposed district. That requirement of the state law sends the mailing cost into the hundreds of dollars. The requirement is not one fixed by county officials.

RAISING MONEY EMERGENCIES OF CO. L

The Santa Ana Chamber of Commerce is to receive subscriptions to the emergency fund that is to be raised for Company L. Contributions for that fund may also be left at the Register office, or at the banks.

The fund was opened yesterday by a contribution of \$10 from the Register and \$10 from the Santa Ana High School Alumni Association.

The Chamber of Commerce secretary, J. C. Metzgar, stated today that the organization would get the money together and send it to Captain McBride to be used by him as he sees fit in emergencies and for the comfort of members of Company L.

Contributions should be sent in at once. Contributions received today are: Santa Ana Blade, \$10; H. T. Rutherford, \$10; F. E. Farnsworth, \$10; R. E. Larter, \$5; Mrs. A. E. Stockslager, \$10.

GIANT SAW IN MILL CLEAVES MAN IN TWO

COLUMBUS, Ga.—J. F. Sellers, 27-year-old sawyer for Alexander Bros., sawmill operators at Osaatchie, Harris county, was instantly killed when he fell across the big saw of the mill recently.

The saw struck the young man in the right shoulder and ranged through the heart, cutting the body in two.

Sellers' bride of three months had just entered the mill building to accompany her husband to their home near by and when she neared the saw pit found her husband in two pieces. She fainted, and it was some time before she recovered consciousness.

SHOULD SLOAN'S LINIMENT GO ALONG?

Of course it should. For after a strenuous day when your muscles have been exercised to the limit, an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp without Sloan's Liniment," writes one vacationist. "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.

PRISON REOPENS; BABY IS TORN FROM MOTHER

COLUMBUS, O.—An exciting scene was enacted at a hospital here when penitentiary officials forcibly separated Mrs. Margaret Armstrong, a prisoner from Hamilton county, from her two-days-old baby and returned her to the penitentiary, from which she had been temporarily released by order of Governor Willis, so that the child would not be born within the prison walls.

The baby was taken to a children's hospital. An immediate appeal was made to the governor by the state board of charities and within a few hours the prisoner and her baby were reunited.

PAIR OF FRIGHTENED DEER HOLD UP TRAIN

WILLIAMSPORT, Pa.—A passenger train on the Williamsport and North Branch railroad chased two deer for several hundred yards. The engineer sighted the deer shortly after leaving Laporte. The animals were running along the railroad track some distance ahead of the train. As they seemed afraid to jump back into the woods the train was stopped until the deer escaped.

AUTOS SMASH. MAN ARRESTED

Speed on Curves Between Seal Beach and Naples Cause of Trouble

SEAL BEACH, June 27.—Charged with driving an automobile while intoxicated, Edward Hergges of Los Angeles was arrested by Deputy Sheriff Harold Counts while he was driving his machine over the Long Beach-Seal Beach boulevard at the alleged rate of over fifty-five miles an hour.

Hergges' drive came to an end when he rammed a heavy touring car on the road near Naples at a dangerous curve, wrecking both machines. It is said by the officers that the motorist crowded several other motorists off the highway, and one of these happened to be Deputy Sheriff Counts, who immediately took up the chase of the alleged violator of the law.

Before he overtook him, however, Hergges collided with the other car and was picked up with three crushed ribs and several bad cuts and bruises. He was arrested and taken to a Los Angeles hospital.

RUSSIAN WOMAN OFFICER NOTED FOR COURAGE

PETROGRAD, June 27.—"South of Mahala, one of our reconnaissance patrols severely punished the enemy, causing him great losses. The leader of the patrol was Corporal Glustchenko Tcherniawka, who, though twice wounded, brought the party safely back to our lines."—Official Communiqué.

Corporal Glustchenko Tcherniawka is a woman. She bears an inhuman hatred for the enemy. The Cossack patrol which she commands is noted for its fearlessness and daring—always led by her. She is known by the enemy to be a fine soldier, but wild and brutal and relentless and unpardoning. Her patrol is known as the "Eagles," because these Cossacks swoop down, do their bloody work and disappear.

In this way the girl Cossack leader is avenging her father, Major Glustchenko, killed at the front several months ago. She arrived at the front in September and has since been recommended six times for decorations. Her soldiers worship her and the enemy has a price on her head.

YORBA BREAKS IN WITH A DELEGATE

Returns received by S. M. Reinhaus, secretary of the Republican County Central committee, show that Yorba will get one delegate to the Congressional conference to be held at San Diego. In the mass meeting held at Orange no one from Yorba was nominated for delegate from the Fourth Supervisorial District. This put the Yorba people on their mettle, and without saying a word of their intention they put up a ticket of seven at the primaries Saturday, and cast fifty-three votes at Yorba for that seven, and the returns show that they nosed R. W. Jones of El Modena off the delegation. The seven Yorba men are entitled to one-seventh of a vote each. It is understood that they will give their proxies to Erwin Bayha, which will give him one vote.

TRUE PATRIOTISM

Col. Roosevelt's letter, declining the Progressive nomination, was the straight-forward, frank, vigorous paper that his friends and admirers expected—and had a right to expect.

"Sooner or later," Roosevelt wrote, "the national principles championed by the Progressives of 1912 must in their general effect be embodied in the structure of our national existence. With all my heart, I shall continue to work for these great ideals, shoulder to shoulder with the men and women who in 1912 championed them."

"The Progressive movement has been given incalculable impetus by what the Progressive party has done. Our strongest party antagonists have accepted and enacted into law, or embodied in their platforms, very many of our most important principles.

"Yet it has become entirely evident that the people under existing conditions are not prepared to accept a new party.

"It is impossible for us Progressives to abandon our convictions. But we are faced with the fact that as things actually are the Progressive national organization no longer offers the means whereby we can make these convictions effective in our national life. Under such circumstances, our duty is to do the best we can, and not to sulk because our leadership is rejected."

"In my judgment the nomination of Mr. Hughes meets the conditions set forth in the statement of the Progressive national committee, issued last January, and in my own statements. Under existing conditions, the nomination of a third ticket would, in my judgment be merely a move in the interest of the election of Mr. Wilson. I regard Mr. Hughes as a man whose public record is a guarantee that he will not merely stand for a program of clean-cut, straight-out Americanism, before election, but will resolutely and in good faith put it through if elected. He is beyond all comparison better fitted to be president than Mr. Wilson. It would be a grave detriment to the country to re-elect Mr. Wilson. I shall, therefore strongly support Mr. Hughes. Such being the case, it is necessary to say that I cannot accept the nomination on a third ticket.

"I do not believe that there should be a third ticket. I believe that when my fellow Progressives coolly consider the question, they will for the most part take this position.

"They and I have but one purpose—the purpose to serve our common country. It is my deep conviction that at this moment we can serve it only by supporting Mr. Hughes.

'BACK TO THE FARM'

This is a time of year when the hearts of many men in city and town life turn back to the farm. The idea of buying some little place out in the country and earning a living from the soil is cherished in many minds. If one has an independent income, he can perhaps conform to the definition of a gentleman farmer, as a man who can stand expense. If one has no very large savings, the question whether a man can turn his back on the city and without farm experience support a family from the soil, becomes a vital one.

If a man has a lot of gumption and a practical sense of management, it may not be so difficult. But for the average man from an office, more familiar with ledgers and billbooks than with soil and fertilizers, it is not an easy proposition.

Of course he gets no end of help from bulletins, experiment stations, college extension services, etc. But these helps can't cover everything. In the course of raising every crop, there come exigencies not covered by any literature within his reach. The traditions of the neighborhood tell the farmer's boy what to do. But minus that experience, and with his scientific advice many miles away, the amateur is more or less helpless.

Half of the men from city life who try farm work give up because the physical labor is beyond their strength. They can't afford to hire sufficient help, and can't plough and pitch hay themselves. The time when their muscles could have been developed has passed.

Still it is foolish to say the thing can't be done. The many women who have made a success at farming without doing hard labor themselves, prove the thing is possible. The Back to the Soil man must be content with small returns for the first few years. Profits for a few seasons may not come in cash at all, but may simply

Republican Success Is the Country's Greatest Need

[H. M'PHEE IN SANTA ANA CHRONICLE]

In California, and more particularly in this portion of California, there is, as we see it, not the slightest reason or excuse for voting the Democratic ticket next fall, or indeed, ever again, until the Democratic party proves itself amenable to reason in the matter of the tariff. And the Chronicle is now addressing itself more particularly to those of its readers who have heretofore affiliated with the Democratic party, and would ask them, in all sincerity and in all kindness: do you not realize that the Democratic party's attitude on the tariff is such that its retention in power spells ruin for the most important industry in this locality, an industry in which you and your neighbors are directly and personally interested? Reference is, of course, made to the lemon industry, which is of supreme importance in this vicinity and which the leaders of the Democratic party have shown themselves willing to destroy at the behest of a coterie of brokers and shippers of foreign grown fruit. This association, with its large slush fund, wishes to control the eastern market, and with the big advantage of very low freight rates they can do this, if allowed to bring lemons in duty free or practically so. And this is precisely what the Democratic party has shown itself to be in favor of, and when protest was made by representatives of the California lemon growers a leading Democrat in Congress assailed their cause, with all the vituperative ability at his command, as an illegal trust in restraint of trade.

No, the Democratic party has no reason to look for support from the lemon growers of Southern California, no more than it has from the sugar beet growers of Michigan, or Colorado, or of California. The Democratic party as a party is on record as opposed to any tariff other than that for revenue only, which is, in effect, free trade. And free trade, or any approach thereto, has never failed to work an injury to this country. It has "laid off" from steady and remunerative employment

Another Kind of Hyphenate

FROM THE STOCKTON RECORD

With the platforms of both great political parties embodying the direct charge that citizens of alien birth or sympathies have sought to prostitute the policies of this government in the interest of foreign powers, that charge may be accepted as reflecting public opinion on the subject.

Following the opinion comes reluctant resentment. As Americans we object to divided allegiance and to the interposition of foreign issues into our internal politics. We resent the injustice and unfairness of such an attitude by peoples whom we regard as the subjects of our bounty of liberty and opportunity.

Let us follow the matter further: Today certain selfish interests are seeking to drag this country into war with Mexico. American exploiters have crossed into Mexico, and by means fair or foul have acquired interests there. The Mexican people, awakening to a new longing for liberty and social justice, have arisen in revolution. Revolutions are not, among any people, conducted along lines of law and order or soft-mitted intercourse. Like a fire, revolutions often pass beyond control by their legitimate leaders. But that fact does not argue against the justness of revolution as the last resort of oppressed peoples. Nor does the fact that an embattled people are suspicious of all foreigners, and particularly of alien predatory interests, justify a forfeiture of dependence and property. During our four years of civil war we laid up some strong suspicions and resentments.

How does the attitude of Americans in Mexico, and some of the Hearst type on this side of the border, compare with the attitude of some of our citizens who have let their sympathy with European belligerents

public wealth and called for the army and navy of a foreign power to come and help them hold it; they have not armed themselves and defied the government; they have not insisted that their flag shall be lifted in sovereignty above our own flag. But Americans in Mexico have done very nearly all these things. Our adventurers and exploiters have entered Mexico to get what they can out of it. They have carried thither neither education, social justice, honest wages or true democracy. They have not carried to Mexico the sturdy virtues which new races have brought to us. And now that the ignorant, long oppressed Mexicans are striking blindly, their subjugation to foreign rule is proposed by the Americans. The crimes of Mexican bandits are covered amply by the criminal law; but some of our militants propose to assault the liberty and independence of a whole nation because their bad men taunt our race pride. Nor ought we to confuse patriotism with mere covetousness of Mexico's wealth.

We stigmatize as criminal the activities of alien sympathizers in our country, but similar and worse conduct by our own people in another country is upheld as legitimate and even patriotic. To use an extravagant form of expression, we are making a magnificent demonstration of inconsistency.

If, instead of shutting food out of Mexico, we were sending it in to feed the half-famished people; if, instead of bullets, we dealt out succor to these people; if, instead of army men or business agents, we had sent fair-minded men of peace among the Mexicans, they would today be our friends. And if our later policy were followed for a generation, they would become our allies in all the warmth of their Latin natures.

The situation is one to excite profound sorrow, one-half of which should be for ourselves. After twenty centuries of education, Christianity and experience with human nature, our rules of action fail to rise above the faulty principles adopted by Rome when imperialism was her religion.

6736 FLIES KILLED

BY SCHOOL CHILDREN

COLUMBUS, Ind.—In spite of weather that has been too chilly to be comfortable for flies several thousand have been killed by Columbus school children who are taking part in a flyswatting contest. Melvin Houk, a principal in one of the schools, has charge of the contest. He has announced the scores of the three leading swatters in each of the six schools. Paul Huffman of the Central building leads with 651 flies killed. The 18 leaders have killed 6736. Six hundred and thirty-two children are entered. More than fifty prizes have been given by Columbus merchants.

With Malice Toward None

By Henry James

Greek and Latin

Why should the student fitting himself for some work other than the teaching of Greek and Latin devote time to these languages?

The question is considerable of a chestnut, but there seems to have been evoked no final answer.

As good intellectual drill would be had by studying French, Spanish or German, any of which might be of practical utility.

The average college student in later years remembers vaguely that all Gaul divisa est to the extent of parties tres and has recollection of the meter of Virgil. As to Greek, he is able, even into middle age, to recognize the characters, particularly if they were the ones indicative of his frat.

Depravity

A man had a vicious horse that had tried to kill him, and in a later effort, deliberate as an assassin's, did kill him.

Between these outbursts of equine depravity, the man had been urged to get rid of the creature, by which, presumably, was meant its sale to an innocent party.

Seems to be a question of ethics here. Perhaps a balky horse, or one spavined or wind-broken, is a legitimate article of barter, but the man-slaying horse should be regarded as a separate class and withheld from the market.

An Omission

One of the newspaper writers on medical topics, after naming the various small pests to be feared, says the bite of a caterpillar or a moth should be treated immediately.

How about the bite of a fishworm, doctor?

Methods of Relief

"A choking infant can be relieved quickly by pressing it between the eyes with your finger."—Newspaper item.

Another good way is to remove the object that is choking the infant.

Comforting

Says Rockefeller, Jr., "Oh, do not be a snob;

Please, Common People, mingle with the circles now above you; If you'll do this, and also stay contented on your job,

You'll be surprised to find how much we fellows up here love you."

Discontent

When a woman has reached a pleasing embonpoint, to the observer suggestive of proper nourishment and reasonable content, and assuredly adding to her good looks, she develops an ambition to become skinny. If, on the other hand, she is thin, she sighs and cries for plumpness.

The woman of middle age satisfied with her own weight would be welcomed by a generation that pines for novelty.

Seering

"An ordinary set of dominoes supplies an easy and instructive method of telling one's fortune."

Thus an astrologer begins a long article informing the layman how to

snatch the veil from the future, and at the same time lifts his own calling to a plane of dignity which some of the more thoughtless among us had denied it.

Uncle Sam's Chance
A woman who imported some lingerie of high class, but neglected, perhaps from modesty, to take the customs officers into her confidence, finds that she must pungle up \$1300 or lose the fluffy stuff.

Possibly Uncle Sam could use it. There are times when his conduct seems extremely ladylike.

Above Poverty

Speaking of a citizen who left a fortune of a million, a Philadelphia paper remarks casually that he "was not rich according to modern standards." Well, tolerably assured of three squares daily, anyhow.

Growing Better

Certain California heirs of a rich decedent have agreed to pay the inheritance tax. No litigation, no protest, no evasion.

Surely the millennium, albeit traveling a rocky road, is on its way.

Just Possible

"Honest Horse Racing Wins Back the Public."—Headline.
Well, there may be an honest horse racing somewhere.

Wrecking

One firm in Los Angeles wrecks fifty automobiles a day.
This exceeds slightly the number wrecked by joyriders.

Hard Job

Editor Harden of Berlin has had his paper seized again and a new muzzle affixed to himself.

Doubtless Berlin is a bad town in which to run an anti-administration journal.

Suppression

It is hard to refrain from remarking, in relation to the divorce of Aviator Graham-White, that he always was a high-flyer.

WRECKS AUTOMOBILE, BUT CHILD IS SAVED

GLOUCESTER CITY, N. J.—In order to avoid running down a little girl who walked directly across the street in front of the automobile of a Philadelphia department store, the driver turned the machine aside, and as the roadway was wet, the machine skidded and crashed into a tree. The car was a wreck, but the child was safe.

DELIGHTFUL MUSICAL

Music Association and Ebbl Section Join In Enjoyable Affair At Gustlin Home

The joint meeting of the Music section of the Ebbl and Music Association of Santa Ana, which was held last evening at the home of Mr. and Mrs. C. A. Gustlin was a delightful and artistic success. The program was given by Miss Frieda Peycke, who gave her own songs and musically illustrated poems, and piano solos by Mr. Gustlin and a two piano number by Mr. Gustlin and Mr. Frazier.

Miss Peycke is a young woman of versatility and most charming personality, who thrills her audience to any emotion she chooses, at the same time forgetting none of her art.

Mr. Gustlin's many admirers were more than ever impressed by his finished technique, absolute control and perfect balance, which always characterizes his playing.

Mr. Frazier showed his splendid ability as a concert pianist in the two piano number.

After the program, the guests were served with punch and cake in the beautiful pergola opening from the dining room. A great deal of praise and appreciation were expressed by the many members and guests to Mr. and Mrs. Gustlin and Mrs. Arnold.

Mr. Gustlin of the music section, and Miss Sarah Gardner, president of the Music Association, for the unusual and enjoyable program, which was as follows:

Fishing, Thanksgiving Dinner, Why is the Cat Bird? The Little Black Dog, The Old Gray Spider (Miss Peycke); Waltz, Tocatta (Alberto Jones); A la Cubana (Granados); Mi Teresita (Waltz) (Garreno); Mr. Gustlin; Motive, The Wild White Rose, Three Little Boy Songs, Chums, Mah Lil' Bit (Miss Peycke); Concerto op. 22 (Saint-Laens); Andante Sostenuto, Mr. Gustlin.

Mrs. Gustlin made her lovely home even more attractive by arranging great bowls and jars of pink hydrangeas, which just now are in the height of their beauty and Cecile Brunner roses with forget-me-nots.

The pergola was lighted with Japanese lanterns with a background of climbing roses which formed a beautiful setting for the merry company which enjoyed a social period there following the program.

PLEASING MUSICAL

Mrs. Anna Hewitt's Pupils Please Large Audience With Good Program

The spacious and beautiful new home of Mr. and Mrs. Gus Stumpf at 820 North Ross street, on Friday evening last was the scene of a most excellent musical given under the direction of their untiring proficient instructor, Mrs. Anna Hewitt.

The rooms, which were beautifully decorated with ferns and roses combining with the children and music under the soft glow of the electric light cast an enchantment upon the parents and friends who assembled to hear the following program.

Each number showed excellent work and talent of the pupil, the program being as follows:

Dream Waltz, from Tales of Hoffman, Ruth Finley; Purple Pansies (Pearls), Boyd Joplin; Chariot Race (Paul), Kathryn Buxton; duet, Moonlight Music (Root), Lizetta Phillips, Elizabeth Wright; Robin's Departure (Fisher), Irene Warwick; Idillio (Lack), Rebecca Joplin; Stately Hollocks (Pearls), Lizetta Phillips; reading, The Soul of a Violin, Lorna McIntire; A Starry Night (Smith), Mabel Stumpf; Amarillis (Louis XIII), Carolyn Finley; Polish Dance (Scharwenka), Goldie Lee; Love's Golden Star (Drumheller), Mary Galloway; Sweet Bye and Bye (Stier), Gladys Hatch; Triantella (Heller), Elizabeth Wright; Martha (Smith), Lorna McIntire.

In addition to the piano numbers, the audience was delighted with three whistling solos by Mrs. Bessie Campbell, accompanied on the piano by Mrs. Hewitt.

Mrs. Campbell's bird-like notes and trills together with her power of expression on the high notes and soft tones bespeak for her a great future.

Miss Lorna McIntire's reading, "The Soul of a Violin," was accompanied softly on the violin by her father, Mr. Bert McIntire.

Excellent refreshments were served by the hostess and parents.

High School Graduates Honored

Five graduates of the '16 B class of the polytechnic high school and members of the Junior Philathea class of the United Presbyterian church, were complimented last evening at a delightful evening at the home of the pastor and his wife, Rev. and Mrs. J. G. Kennedy.

Carnations being rare at this season, beautiful waxen daisies were used in lieu of the class flower to adorn the rooms.

The honored young ladies were Misses Florence Breckenridge, Maurine Baker, Mabel King, Virginia Hayes and Margaret Wiley.

Floral games, cleverly arranged, made interesting diversions during the evening and before the young people departed they were served with delicious raspberry shrub and home-made cakes.

Others present were Miss Laura Taylor, a guest of the class; Agnes Alumbaugh, Ada Hoy, Lila Hoy, Effie Wiley, Myrtle LePage, Ethel Morrow.

Farewell Surprise

Mrs. Geo. Post entertained yesterday afternoon in honor of Mrs. J. H. Chamberlain, who expects to leave the end of this week for Kansas to reside.

The party was a complete surprise to Mrs. Chamberlain, who was called from her packing by Mrs. Post to "come over a minute."

The ladies took their embroidery and crochet work and Miss Eula Chamberlain delighted the company with her sweet music and also took kodak pictures of the group. Miss Violet Post entertained with violin music and also assisted her mother in the serving of refreshments. A postcard shower was given Mrs. Chamberlain, after which Mrs. Post served delicious ice cream and cake.

Mrs. Post's decorations were Shasta daisies and ferns. Those who enjoyed this pleasant afternoon were Meses. W. N. Allen, Sophia Rice, H. E. Johnson, Chas. Tibbitts, F. Trickey, O. E. Bullock, J. A. TODAY'S BEAUTY TALK

You can make a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist a package of canthrox and dissolve a teaspoonful in a cup of hot water. Your shampoo is now ready. Just pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes the dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure. Advertisement.

RUTH TAVIS FALLS HAS BROKEN ARM

Ruth Tavis, small daughter of Mr. and Mrs. J. J. Tavis, fell from a tree yesterday afternoon and broke her left arm above the elbow. With a number of children the little girl was jumping from limb to limb of a large umbrella tree in the yard of the Tavis home, when a limb about twelve feet from the ground broke, throwing the little girl to the ground.

AMUSEMENTS

Tustin Entertainment

The entertainment at Tustin auditorium on Wednesday night of this week offers a real treat for the patrons of high-class humor and song. Every number is of great merit, and should receive a very liberal patronage.

Music is the echo of life's harmonious side and the elysium of human restfulness. The program is made up of American boys—Master Douglas, a boy soprano; Rev. Dowling is master of the art of human sunshine; Maurice Phillips is the entity of good-fellowship; William Carl Pirsch is all, and does all in human province to make the world happier.

This program will drive away the "gloom bugs."

Seats on sale at Hatzfeld & Parsons' pharmacy, Tustin Drug Company and at Tustin auditorium the night of the entertainment.

At the West End

Sessue Hayakawa, the celebrated Japanese actor, at the West End Theater tonight in "Alien Souls," was born in Tokio, Japan, twenty-seven years ago. Hayakawa's uncle was the famous Japanese actor, Otto Katakami, and Hayakawa, fascinated by the stage, entered his uncle's company in which the celebrated actress, Madam Yacco, was appearing. Hayakawa appeared in support of this artist at the Shintomi Za and the Teokoku Za, two leading theaters in Japan. He accompanied Madam Yacco and her company to this country, studied English drama and literature for one year at the University of Chicago and translated a number of English classics into Japanese. He returned to Japan and appeared in Shakespearean plays, scoring a great success as "Othello." Upon returning to this country he was selected by a distinguished motion picture director to play the stellar role in "The Typhoon" and "The Wrath of the Gods," and in these made a phenomenal success. In Madam Yacco's company was a little eight-year-old Japanese actress, Tsuru Aoki, who eventually became Mrs. Sessue Hayakawa. Hayakawa's first engagement with the Lasky company was in support of Edward Ayles in "After Five."

INDIANA MAN'S EXPERIENCE

—Frank Moseley, Moore's Hill, Ind., writes: "I was troubled with almost constant pains in my sides and back and attributed it to weakening of my kidneys. I got a package of Foley's Kidney Pills. Great relief was apparent after the first doses and in 48 hours all pain left me." "If you have rheumatism, backache, swollen, aching joints or stiff, painful muscles, why not try Foley's Kidney Pills? They stop sleep-disturbing bladder ailments, too. U.S. Gov. experts report that oils correctly refined from asphalt-base crude "distill without decomposition" (do not break up and lose their lubricating value under cylinder heat) and "are much better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils."

Motorists who use Zerolene, an oil scientifically refined from asphalt-base crude, back up the experts with reports such as these: "Covered over 16,000 miles without adjusting valves or cleaning out carbon."—"The carbon taken out of this car in 50,000 miles amounted to less than an ounce." Zerolene is for sale at dealers everywhere and at service stations and agencies of the Standard Oil Company.

IF you are a business man, if you are a professional man, if you are employed at a daily wage, make up your mind to deposit weekly a certain sum of money in the bank. You'll be surprised how the sum will grow. Cash in bank gingers up the man who has it there. He has more confidence in himself. The business man is ready for a dull season. He is ready for an opportunity.

So is the professional man. The man who is working for a daily wage and who hasn't any money in bank frequently is fearful of a loss of his situation. He does not work as well or with the confidence in himself as does the man with something laid aside for a rainy day.

HITS LOG, GOES TO BOTTOM OF THE OCEAN

SEAL BEACH, June 27.—Sinking in over forty feet of water in less than a minute after three gaping holes had been torn in her bottom when she struck a loose piling, the hydroplane Peggy lies at the bottom of the Pacific today, while her owner, Frank S. Gregory, of Huntington Beach, and Harry Norris, a mechanic, are congratulating themselves on their narrow escape from drowning.

The two men were picked up by a Japanese fishing launch soon after the accident, which occurred two miles out in the channel, and landed at the Seal Beach pier. Each just had time to grab a life belt while the speed craft was sinking.

The Peggy was regarded as about the fastest motor boat on the Pacific coast and has a record of several victories on northern courses where she carried everything before her in speed regattas held last year. She was doing over forty miles an hour yesterday when the accident occurred that sent her down.

Didn't See Log

Frank Gregory, the owner of the boat, was at the wheel when the impact came. It is believed that the heavy spray the motor craft was throwing ahead on account of the choppy sea obscured the log, which entirely ripped the forestep of the plane from the boat as it struck head on, squarely in the middle of the log. The speedster was moving so rapidly that as it passed over the log, the after plane was also torn loose and the boat began to fill with water immediately.

Gregory and Norris, the only occupants of the Peggy, barely had time to fasten a life belt around their waists before they found themselves floundering helplessly in the heavy sea.

About ten minutes later a Japanese fishing launch on the way in from a catch sighted the victims and pulled them aboard, terrified and exhausted, but still conscious.

Neither man knew what caused the accident until the hydroplane had sunk and they saw the log riding on the long swells. This same log, however, may have been the means of saving both men's lives, as it held them up until help arrived from the fishing boat.

Mr. Gregory says he will begin the construction of another craft of practically the same type, which he will christen the Peggy II.

Why Take A Gambler's Chance with Your Money

Don't you know that almond growing is one of the easiest, quickest, most profitable (if you select the right locality) orchard crops in the state of California?

Do you know that according to Government reports, our consumption of nuts is increasing 15 per cent per annum? That 85 per cent of the almonds we consume are imported from Spain, Italy and France? That California produces 98 1/2 per cent of all the almonds produced in the United States?

Do you know the almond territory is more limited in area than that of the English Walnut and that Paso Robles Almonds were awarded the Gold Medal and a Bronze Plate for quality at the St. Louis Exposition? Don't you know that the

TEMPLETON-PASO ROBLES district is being recognized as the coming almond district of the State? That many, many thousands of trees are being set out in this territory? In fact there is an almond boom there.

Would it interest you to know that young orchards there are producing \$50.00 per acre in their third year?

Let me tell you more about the almond, because you can't get the ALMOND STORY IN A NUT SHELL!

Then there are so many other interesting facts about the Templeton-Paso Robles country that you should know, that I am sure if you drop me a one cent postal with your name and address plainly written the booklet I will send you will give you much valuable information.

LOS ANGELES PRODUCE MARKET
Ruling prices today for the best grades of cherries are 12 to 13 cents a pound. Plums continue to weaken as the result of a constantly augmented supply and yesterday Burbanks were selling for 85 cents to \$1 a lug, Satsumas from \$1 to \$1.15 and Clyman from 80 cents to \$1 a lug. Cantaloupes and watermelons are unchanged as far as prices are concerned, but the fruit wholesalers report that the demand for all kinds of melons is picking up steadily.

In the vegetable list eggplant was again cut and the quotation for the same is now 4 1/2 to 5 1/2 cents a pound. Tomatoes are also easier and the best stock was bringing but 60 to 80 cents a crate Monday.

CONVICTED MAN 'COLD DECK VICTIM, HE SAYS

SAN BERNARDINO, June 26.—After James Allen, charged with robbing a Needles gambling house, had been convicted by the jury that tried him, several jurors declared they had voted for his conviction on the charge of assault with intent to rob, believing he carried a couple of jail sentences only. Instead, the maximum penalty is fourteen years.

Allen said he discovered he was the victim of a "cold deck" and he simply took back, at the point of a revolver, the money he had lost to the gamblers.

RUMANIAN SOLDIERS USED IN HARVESTING

BUCHAREST, June 26.—The Rumanian army has been partly demobilized to permit the soldiers to return to the fields during the harvest season. Owing to the bad weather and the extensive smuggling operations which have been carried on along the frontier, a serious food shortage was threatened and the government took this means of relieving the situation. With the extra hands that the soldiers will furnish, it is believed the full crop will be harvested.

VIENNA FASHIONABLES
ADOPT LINEN SHOES
VIENNA—Linen shoes have become the fashion for spring and summer in Vienna this year on account of the confiscation of the leather supplies for military purposes. The new linen shoes are being made in light colors, white, light brown and brown, and a variety of other shades. They are said to be strong and comfortable and cost but three dollars a pair, as compared with eight dollars at which leather shoes are now priced.

The Land Problem

According to the Register of 6-22-16, farm land values have jumped from \$15.57 per acre in 1900 to an average of \$45.55 in 1915, so it can be seen that the land offered by us situated in the most favored spot on God's green earth at prices around \$250.00 per acre with water stock free, and plenty of time to pay, is a snap.

IN THE JUSTICE COURT CHARGE MEXICANS ROBBED SILKWOOD RACE DRIVER \$10

Orange Restaurant Man Is Accused of Choking Boy Who Owed Him Money

Jacob Willits, former owner and driver of the famous racing stallion, Silkwood, went into the district attorney's office this morning to tell of the loss of \$10 that he is satisfied was stolen from him as the result of a conspiracy of three Mexicans.

Willits has a house rented to Seprano Vramonte, for which \$10 was owing Willits. Vramonte and two other Mexicans went to Willits' house, and the \$10 was laid down on the table. Willits turned away to write a receipt. When he came back to the table the two companions of Vramonte were gone. Likewise the \$10 Vramonte told Willits that Willits had put the money in his pocket, but Willits knows he did not do so. The district attorney's office authorized a warrant for the arrest of the three Mexicans.

AT THE COURTHOUSE

BEFORE DEEDING TO M'GRATH, A SUIT NEEDED

Action Involves Clearing Title to Lot In Line of Supposed Railroad Route

In order to clear up title to an East Second street lot that lies in the line of the supposed right of way for a new railroad through Santa Ana, action has been brought by J. W. Walls against George C. Clark as administrator of the estate of Ruth A. Clark. The property involved in the action is the north half of lot 5, block 3, W. Z. Cook's addition to Santa Ana. It is located on the south side of East Second in the middle of the block east of Garfield street. Other lots, both north and south, have been deeded to Warren F. McGrath, a Los Angeles real estate man who has been deeded about forty lots between Chestnut and Stafford street in the last two weeks. In the quiet title action, Attorney H. G. Ames appears for the plaintiff.

Letter from Governor
Today Judge Thomas received a letter from the secretary of Governor Carlson of Colorado in which the judge is assured that the authorities there will turn L. C. Sharp over to California authorities if he fails to keep probation. Judge Thomas has consented to the arrangements that allow Sharp to remain in Colorado. He was wanted here for breaking his probation, ordered upon conviction of giving liquor to a prisoner.

ALONG BORDER FROM YUMA THEY FOUND THINGS QUIET

Back from a trip to Yuma by automobile, O. W. Humphrey says that at Yuma and other points along the border west of Yuma he found no excitement concerning the troubles with Mexico. "In fact," said Humphrey, "the situation seems quieter than it is here. We were across the border in several places, talked to a large number of people along the border, and were told that in the event of war but few expect trouble from Lower California. We were at Yuma, Mexicali and Jacumba. We were assured that Gov. Cantu of Lower California is against aggression."

Humphrey and his wife and two children and Louis Ball and Erskine Ball went by automobile to Yuma, where Humphrey has land interests. They were gone two weeks on the trip.

EGYPTIAN COTTON CROP REPORTED PROMISING

ALEXANDRIA, Egypt—It is pleasing to hear from all parts of Egypt of the splendid start which the new crop has made. All lands were sown a few days earlier than usual, and as fortunately no adverse weather conditions were encountered the young plants have everywhere come up strongly and regularly, and there has been but a minimum of re-sowing required. This good beginning, with an area under cotton greater than ever before in Egypt, augurs well for a big crop next autumn, and this will be very welcome to the fellahs, who through the curtailment of credit have lately been very pinched for cash, to pay the interest due on their debts and to carry on the cultivation of their lands.

AT EL TORO ARREST MEXICAN THOUGHT TO BE A MURDERER

Alfonso Cantu Taken to San Diego Accused of Death Of Negro

Slipping quietly into Orange county last Saturday, deputies from the sheriff's office in San Diego arrested a man they believe was implicated in a murder. The arrest was made at El Tero and the man arrested is Alfonso Cantu, a Mexican. Cantu will be arraigned today before Justice A. A. Shilling in San Diego. The arrest was made Saturday by Deputy Sheriffs William Landis and C. E. Ortega and Cantu is being held in the county jail for prosecution. It is alleged that Cantu recently made a confession to Miguel Perales, an acquaintance, that he was one of four Mexicans implicated in the killing of Harry Adams, a negro, near Mountain Springs, August 23, 1914.

LIGHT RATES CUT IN PHILADELPHIA

PHILADELPHIA — Sweeping reductions in present electric lighting and power rates, which will approximate 20 per cent, were agreed to by the Philadelphia Electric company at the concluding hearing of the case against it by the public service commission.

Scoring a clean-cut victory for the more than 60,000 private consumers of current and for the city itself, the complainants, in conference with the representatives of the company, obtained a settlement under which the company agreed to slash its rates on such a basis that, applied to the income of \$7,849,267 for 1915, would have meant a cut of \$1,000,000. The reduction for 1916 will be close to \$1,250,000 it is estimated.

The reduction in rates is variously estimated at from 12 to 20 per cent. Former Chief of the Electrical Bureau Pike stated that, excluding corporations whose present rates were too low to admit of further reduction, the city and the average consumer would pay 20 per cent less. Representatives of the company, however, declare that it was impossible to estimate the reduction at this time.

Increased business brought about by the marked reduction in rates, will follow the adoption of the new rate schedule, both sides predicted.

SPAIN HEARS BELGIAN FREEDOM KAISER PLAN

MADRID, June 27.—The German submarine U-35 brought three letters to King Alfonso from the Kaiser. Two set forth the German peace terms, which include a demand for the restoration of the German colonies and provide for the liberation of Belgium, although that country must not be fortified near the German frontier.

PANAMA POLL RIOTING BRINGS DEATH TO 3

PANAMA, June 27.—Three persons are dead as a result of the rioting which accompanied the presidential elections Sunday. The election of the government candidate for president, Dr. Ramon Valdez, formerly vice president of the republic and once minister to the United States, is indicated.

HOUSE VOTES PENSION FOR CONFEDERATES

WASHINGTON, June 27.—Men who fought in the Confederate army in the Civil War, and their widows, will hereafter be eligible for pensions under an amendment proposed by Representative Huddleston of Alabama and voted into the annual army appropriation bill which has passed the House.

Under the law no Confederate veteran or widow of a Confederate veteran could be a pension beneficiary. Representative Huddleston pointed out that the sons of many of these Southerners will be on the firing line.

FIRST BAND CONCERT OF THE SEASON IS TOMORROW EVE.

Tomorrow evening the first band concert of the season will be given at Birch Park, starting at 8 o'clock. The concerts will be given each Wednesday evening throughout the summer, excepting Wednesday evening of next week. The concert next week will be given on Tuesday evening, the Fourth of July.

W. Frank Harris, director of the Santa Ana Elks Band, which is to give the concerts, has announced the following program for tomorrow evening:

4. Overture, "Jolly Robbers" (Suppe.)
5. Oriental Oddity, "Princes of India" (King.)
6. Selection, "American Patrol (by request), (Meacham.)
7. Finale, "Star Spangled Banner."

PIONEER OF NORTH END COUNTY DEAD

FULLERTON, June 27.—Alexander Burns Annin, one of the oldest residents of this section, died at 3:40 o'clock this morning after a long period of suffering from pulmonary carcinoma. Annin, who is survived by eight sons and five daughters, all well known Southern Californians, was 67 years of age. He owned considerable property in Fullerton and did much to aid the upbuilding of the city. The funeral will be held at 2 o'clock Thursday afternoon from the home on East Commonwealth avenue, Angus McAuley having charge. Annin resided in Fullerton for twenty-seven years.

MANY ENGLISH WOMEN TAKE BANK POSITIONS

LONDON—The increasingly large number of women employed in various banks in the city gave additional interest to the examinations of Kings College, University of London, in connection with the Gilbert lectures on banking this year. Many women took part in these examinations for the first time and four of the 22 candidates who obtained 80 per cent of marks or more, with a note of approbation from the examiner. Seven other women appear in the list of those awarded certificates or prizes.
